

# 2011 Pattern Judging Seminar

**SEMINAR LEADER: RICHARD LINDBERG**

Description: Presentation of NSRCA materials describing the new AMA patterns and the current F3A patterns. There will be a power point presentation of the new patterns, the related AMA rule changes and analysis of the maneuver downgrades for both AMA and F3A. The presentation will lead to an open book, collaborative certification exam.

## Date & Time

10am-3pm April 30, 2011  
Lunch will be provided

Fee: \$10 (includes lunch)

Place: North valley Library at 7704 2nd st.

Sunday there will be demonstrations of the patterns by John Gayer and Richard Lindberg (maybe others) and a relatively informal pattern contest for Sportsman and Intermediate flyers. By informal I mean that there will be time between flights for the judges and participants to communicate what was good in the flight and improvements that could be made, what to focus on during practice, etc. Notes should be taken. Don't expect the judges to remember all your mistakes at the end of the round.
